With over thirty-one years in the aquarium and zoo retail business, Wildlife Trading Company is the only retail company dedicated solely to this market, and has a full staff with extensive experience in the retail market.

WTC constantly strives to drive sales as opposed to cutting costs. This methodology allows WTC to make major capital investments in retail operations and pay higher dollar commissions to its partners. Larger companies miss the opportunity of day-to-day hands-on corrections because of top down structures. WTC's proven ability to increase revenues, and thus your income, comes from both active technology and active, on-site knowledge of experienced, engaged staff.
